

GIDEON SAKA

Business Analyst (Finance & Operations) | +233(0)503314331 | +233556139375 | Accra, Ghana.

PROFESSIONAL SUMMARY

Business Analyst with 5+ years of experience in accounting, finance, and insurance operations. Specialized in analyzing operational and financial workflows, clarifying business requirements, and supporting process improvements across the order-to-cash and procure-to-pay cycles. Strong background in claims processing, cost monitoring, reconciliations, and month-end close, with proven ability to translate data into insights for management decision-making. Experienced with ERP systems and advanced Excel to analyze trends, monitor performance, and improve reporting accuracy. MBA-trained, with a collaborative approach to working with stakeholders and supporting continuous improvement initiatives.

WORK EXPERIENCE

Old Mutual Life Assurance Co Ltd

Business Analyst (Transport and Facilities Team Lead)

Accra, Ghana

01/2020 – 12/2020

- Diagnosed transport and facilities workflows to isolate cost drivers, service gaps, and operational leakage points.
- Facilitated requirement alignment between internal stakeholders and service vendors to coordinate corrective actions.
- Developed expense and utilization dashboards highlighting budget variance patterns for management oversight.
- Delivered optimisation initiatives achieving a 10–15% operating cost reduction while sustaining compliance standards.

Old Mutual Life Assurance Co Ltd

Business Analyst (Claims)

Accra, Ghana

09/2019 – 12/2020

- Adjudicated and processed 1,000+ daily claims against policy logic to ensure decision accuracy and consistency.
- Interrogated claims datasets to surface bottlenecks, recurring exceptions, and risk indicators, improving turnaround time by 15%.
- Liaised with underwriting, risk, and operations units to resolve ambiguous cases and align determinations with policy intent.
- Maintained auditable documentation trails supporting regulatory adherence and internal review readiness.

Old Mutual Life Assurance Co Ltd
Accounts Administrator

Accra, Ghana
06/2019 – 12/2020

- Evaluated order-to-cash workflows and resolved transactional exceptions impacting billing and reporting outputs.
- Executed journal postings, reconciliations, and variance diagnostics, reducing discrepancies by 25%.
- Coordinated month-end close activities in accordance with reporting standards and timelines.
- Formalized process documentation and strengthened reconciliation controls to enhance consistency and auditability.

MYON Company Ltd
Accounts Receivable Analyst

Accra, Ghana
08/2017 – 01/2019

- Administered a receivables portfolio of 100+ accounts, lowering overdue balances by 20% through structured recovery cycles.
- Produced ageing schedules and receivables intelligence reports supporting cash-flow planning decisions.
- Escalated high-risk accounts and coordinated dispute resolution with commercial teams.
- Reconciled customer ledgers and investigated unapplied receipts to preserve account accuracy.

Honest Chef Restaurants
Account Payable Analyst

Accra, Ghana
08/2016 – 01/2017

- Validated supplier transactions exceeding GHS 50,000 to ensure accurate expense recognition.
- Investigated payment discrepancies and reinforced internal control checkpoints to prevent recurrence.
- Matched invoices, purchase records, and receipts to confirm transaction legitimacy and completeness.
- Maintained audit-ready documentation supporting compliance and internal verification.

PROJECTS

Loan Management System

02/2026 – 02/2026

- Analyzed and documented requirements for a loan lifecycle system covering application, approval, disbursement, and repayment tracking.
- Modeled processes in BPMN 2.0 and produced FRD/NFRD and use cases to improve workflow efficiency and transparency.

Insurance Claims Workflow Optimization

01/2026 – 01/2026

- Analyzed an end-to-end insurance claims lifecycle and developed AS-IS and TO-BE process models using BPMN 2.0, covering intake, validation, investigation, approval, and payment stages.
- Identified control gaps and improvement opportunities, documenting structured workflow recommendations to enhance processing efficiency and compliance visibility.

New York Jobs CEO Council

Financial Analyst

08/2025 – 09/2025

- Built a comprehensive financial model to evaluate a potential strategic acquisition of a technology company, modeling revenue synergies, growth metrics, and cash flows.
- Conducted valuation analysis using DCF and comparable company methodologies to support a proposed deal structure.
- Developed and presented a board-ready investment thesis summarizing strategic rationale, financial impact, and key risks.

Boston Consulting Group (BCG)

Strategic Experience & Design

08/2024 – 09/2024

- Developed financial projections and customer analysis for a proposed consumer banking product. Created a business case and concept chart linking customer insights to growth opportunities and revenue potential.

Product Development Project

07/2024 – now

- Designed a no-code prototype app for vehicle maintenance. Conducted financial/operational feasibility analysis, built financial logic to model scalability, and delivered a strategic business case to stakeholders.
